

Suggestions to help us plan our new exhibit space in the Pasto Agricultural Museum

- Hang signs from the ceiling to indicate exhibit categories
- Add more directional signs
- Please add more space around the exhibits so I can see better
- How about adding information aimed at kids to each exhibit?
- Add more space for observation and interaction
- Use video to show the equipment being used
- Can you do special tours for different age groups?
- A timeline of technical steps would be a nice addition.
